PROFILE

Final-year Computer Science student specializing in software and web development. Experienced in building full-stack applications using Django and REST APIs. Highly organized, autonomous, and equipped with strong leadership skills gained through diverse professional experiences. Currently seeking an internship in software development.

WORK EXPERIENCE

IT Intern – Oxfam (IT Department) **Feb 2025 - Apr 2025**

- Managed and organized IT equipment and inventory
- Provided first-level technical support (installation, troubleshooting, basic maintenance)
- Gained hands-on experience in a real IT environment
- Collaborated within a team in a non-profit organization

Team Leader – Chocolate Shop (Student Job) **Nov 2022 - Present**

- Supervised and coordinated team activities
- Organized tasks and managed priorities in a fast-paced environment
- Handled stress and ensured smooth daily operations
- Developed leadership and communication skills

Freelance Translator (Remote) **2022**

- Translated content between French, English, and Arabic
- Worked independently while meeting strict deadlines
- Communicated with international clients

EDUCATION

Bachelor's Degree in Computer Science **2022 – 2026 (Expected)**
University of Namur

Relevant Coursework:

- Object-Oriented Programming
- Algorithms & Data Structures
- Databases
- Systems & Networks
- Artificial Intelligence
- Web Development

PROJECTS

My Agenda – Smart Time Management Assistant

GitHub : https://github.com/ChaimaeHRL/my-agenda

- Developed a full-stack web application using Django
- Designed and implemented a scalable REST API
- Built an intelligent scheduling system based on stress metrics
- Implemented asynchronous task processing with Celery & Redis
- Performed data analysis (workload, time usage)
- Integrated an interactive calendar (FullCalendar.js)

PORTFOLIO / GITHUB

- **GitHub** : https://github.com/ChaimaeHRL
- Main project: My Agenda (full-stack web application)
- Backend development with Django & REST APIs
- Asynchronous processing using Celery & Redis
- Version control using Git

TECHNICAL SKILLS

Programming Languages:
- Python, JavaScript, SQL, C

Frameworks & Technologies:
- Django, Django REST Framework
- TailwindCSS, Alpine.js
- Celery, Redis
- FullCalendar.js

Concepts:
- Object-Oriented Programming (OOP)
- REST Architecture
- Asynchronous Processing
- API Design

Tools:
- Git, GitHub
- Linux

INTERESTS

- Backend development and software architecture
- Artificial Intelligence and data analysis
- System performance optimization
- Technology watch (modern frameworks and tools)

LANGUAGES

Arabic : Native
French: Fluent
English: B1+
Spanish: Basic

SOFT SKILLS

- Leadership (team management experience)
- Organization and prioritization
- Analytical thinking and problem-solving
- Autonomy and adaptability
- Teamwork
